About Us

LifePro Medical Solution Limited is a legally registered company in Tanzania. LifePro are distributors of high-quality medical devices to hospitals, clinics, pharmacies, healthcare, health institute and other health projects. The company also sells directly to end users. We strive to push the boundaries of technology to give our customers the best services and products in the market. The team of founders and staff combines the talents of medical laboratory specialists, technicians, pharmacists, and financial management experts to create a unique environment which is cluster free and in harmony.

- 🌀 **Distributors of medical devices, chemical substances and pharmaceutical-related medicines.**
- 🌀 **Medical device consulting services.**
- 🌀 **Device maintenance and planned preventive maintenance.**

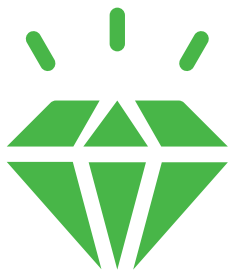

Our Mission

To contribute to the health sector for ordinary Tanzanians and our partners, ensuring access to better medical devices and, in turn, improving health outcomes.

Our Vision

To be Tanzania's most customer-centric company, where our partners and clients can access innovative and cutting-edge health solutions with ease, quality and reliability.

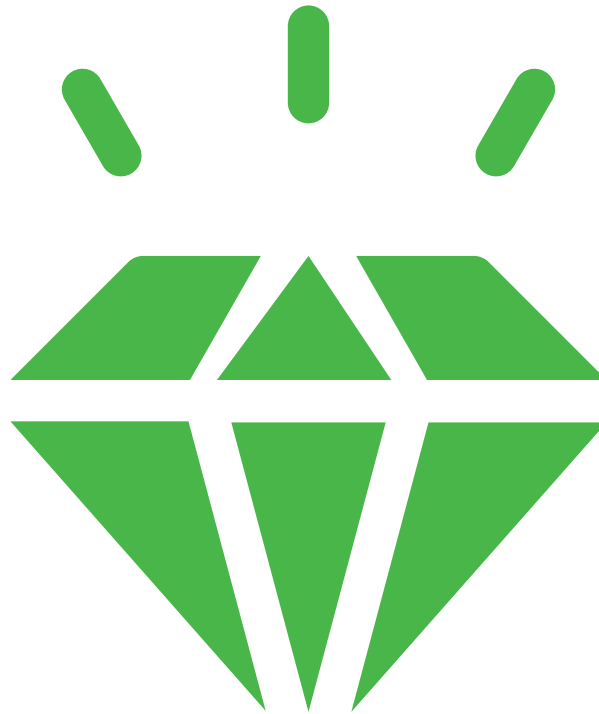

Our Values

- Excellence
- Innovation
- Integrity
- Commitment
- Customer satisfaction

Why Choose Us?

We offer cost effective, quality products and services at competitive prices in the market. We supply and deliver on time based on clients requirements. With an experienced medical team we ensure consistent and professional consulting services.

What we do?

01 Distributors of medical devices, chemical substances and pharmaceutical-related medicines.

We have a strategic function that plays a central role in product pricing, customer satisfaction and supply chain management because we understand that procurement is not only about buying cheaper, but involves the whole cycle of identifying needs, selecting, monitoring and providing feedback especially in this age where business is in a growing global market.

02 Medical Device consulting services.

We offer a range of quality, professional services to meet the ever-increasing demands within the health industry, and the result is a seamless service across several facets of the industry.

03 Equipment Maintenance and Planned Preventive Maintenance.

We have a team of specialists and trained staff that will provide you with the right pieces of device. We provide affordable device and emergency customer support service too.
